Observations:

We had a 40% increase in events and that does not include the SMCI event that had to be cancelled due to weather and security issues.

We increased the number of inmates we witnessed to by 32% from last year.

There was a 19% increase in first time salvation decisions and a 13% increase in other decisions.

We increased teammate participation by 19%.

Conclusion from an operations viewpoint:

We need to continue our pace and perhaps add on another event. We need to increase our teammate base which can be directly affected by our board of directors taking on the challenge of building teams in their areas of influence when possible.
